ABOUT US

Shenzhen Pilot Guards Safety Technology Co., Ltd (PGST), founded in 2011, is a wholly-owned subsidiary of PGST Group. It is a company focusing on the r&d and production of all intelligent home products. Sales and service in one of the national high-tech enterprises. The company has a core technology research and development team of more than 100 people, and more than 100 core patent technologies, covering various dimensions such as iot sensing algorithm, AI video intelligent algorithm, low power wireless communication technology, cloud computing, etc. We invest 10% of the revenue in research and development every year, and always take innovation as the core competitive power of the company. We have a perfect manufacturing system and quality system, shenzhen production base area of 12,000 square meters, more than 400 employees, Guizhou production base of 45,000 square meters, more than 600 people, the annual output of sensor, intelligent camera, security alarm and other products 5 million units.

Our products cover intelligent video surveillance products, intelligent fire alarm system, intelligent iot alarm system, intelligent security and anti-theft system, environmental detection system, intelligent home system, and provide perfect solutions for all industries. Widely used in: smart city, smart traffic, smart community, smart fire, smart pension, smart campus, bank security system and other fields. For many years, we have been awarded "China's Top ten Security Brands", "China's Top 100 Security Enterprises", "Smart City Construction Leader", "National AAA credit Enterprise" and other honors.

Industrial Park in Guizhou

Reception Hall

R&D Strength

We have over 100 core R&D technicians with an average of over 10 years of industry R&D experience. Among them, 20 core technologies have solved the six major shortcomings in the industry, leading the industry in technological innovation in areas such as intelligent security, intelligent fire protection, and intelligent elderly care. We invest at least 10% of our annual sales revenue as R&D expenses.

We have established internationally advanced laboratories and introduced internationally advanced professional experimental testing equipment, such as UL smoke test boxes, EN smoke test boxes, carbon monoxide external analyzers, gas analyzers, high and low temperature experimental boxes, to achieve fully automated calibration and testing, ensuring that every developed and produced product meets international and domestic standards.

Company Development

2023	In the future, navigate further afield
2022	Pilotage Guard won the title of "Specialized, Special and New Enterprise"
2021	Won the honor of the first "China Security Innovation Enterprise". Won the honor of the 4th "Smart Security Excellent Solution".
2020	Won the honor of "Guangdong Province Abiding by Contracts and Valuing Credit Enterprises". Won the honor of "Vice President Unit" of Shenzhen Smart Security.
2019	Awarded 2019 yearly "China Top Ten Security Brands in Alarm Sector".
2018	PGST Shenzhen production base was relocated to Huaifu Industrial Park, Longhua New District to expand production scale. Won the title of "Top Ten Chinese Security Brands". Awarded the title of excellent member company by many media.
2017	50000sqm production base officially put into run. Proudly recommended by many B2C platforms. Won the title of "Top Ten National Brands". Won the "2017 Excellent Security System Integrator".
2016	Won the "China Security Outstanding National Brand" . Awarded"China Top Ten Security Brands in Alarm Sector" . The company was invited to become a member of the first Shenzhen Artificial Intelligence Industry Association.
2015	“China TOP10 Security Brand” , “Chine TOP10 Most Influential Security Brand ” Passed ISO9001:2000 quality management system. Won the industry's highest technology award "Safety Expo Golden Tripod Award".
2014	Awarded 2014 yearly "China Security TOP100 Enterprise". acquired software IP rights through products including alarm host, CO detector, wireless infrared detector and wireless strobe siren. CO detectors passed fire prevention certification.
2013	Awarded the honer of “Vice president of the Security Industry Alliance”, and joined the Chinese Alarm Alliance”. China Security TOP10 Brand in alarm sector
2012	Full ranges of products including home alarm systems, infrared detectors and smokealarms passed the CE, FCC, 3C certification Awarded “Best Worker's Home” by Labour Union of Guangming New District “Security Alarm TOP10 Enterprise”
2011	In 2011, Shenzhen Pilot Guards Safety Technology Co.,Ltd was founded.

Smart home security solutions

When the anti-theft system is triggered, on the one hand, The device will make loud alarm sound to sca thieves away, and even call neighbors and passerbys' attention; on the other hand, the system will automa call preset phone numbers. Then user can know what happens at home and react correspondingly to ensu safety of life and property.

Industrial and Commercial Use Combustible Gas Detectors

GY-PA-223/223NB

Technical Parameters

1. Working voltage: AC 220V/50Hz	11. Storage temperature: -30 °C~+60 °C
2. Rated power: ≤ 3W	12. Detection gas: propane (C3H8)
3. Preheating time: 180S	13. Working humidity: ≤ 95% RH (without condensation)
4. Range: 3% LEL~100% LEL	14. Explosion proof level: Ex db IIC T6 Gb
5. Error: ± 3% LEL	15. Working atmospheric pressure: 86kPa~106kPa
6. Alarm sound pressure: ≥ 70dB/1m	16. Alarm indication: The red LED flashes and the buzzer beeps
7. Alarm method: Audible and visual alarm	17. Alarm setting value: low alarm value: 20% LEL, high alarm value: 50% LEL
8. Auxiliary output: DC 12V output	18. Fault indication: The yellow LED remains on, the display screen displays - E1-, and the buzzer sounds a "beep beep" alarm sound
9. Installation method: wall mounted	19. Overall dimensions: 174.5 * 170.5 * 66mm
10. Working temperature: -10 °C~+55 °C	

Gas alarms for household and small catering kitchens

BYBXYQ-PA-224B

Technical Parameters

Working power supply: Plastic appearance AC 220V	Service life: Carbon monoxide sensor: 3 years; Propane sensor: 5 years
Power: AC 220V < 3.5W	LED indications: green, blue, yellow, and red
Sensor type: propane: catalytic combustion sensor; Carbon monoxide: Electrochemical sensor	Alarm volume: > 70db (1m directly ahead)
Applicable gases: propane and carbon monoxide	Control output interface: DC12V: connected to solenoid valve or robotic arm
Sampling method: free diffusion	Relay output interface: DC12V: switch output or pulse output
Alarm setting value: Propane: 8% LEL; Carbon monoxide: 190ppm	Shell protection level: IP51
Alarm error: Propane: ± 3% LEL; Carbon monoxide: ± 50ppm	Installation environment: Temperature: -10 °C~55 °C; Humidity: ≤ 95% RH (without condensation)
Response time: Propane: < 30 seconds; Carbon monoxide: ≤60 seconds	Atmospheric pressure: 86kPa~106kPa
Range: Propane: 0-20LEL; Carbon monoxide: 0-500ppm	Installation method: wall mounted
Indication resolution: Propane: 1% LEL; Carbon monoxide: 1ppm	Product size: 160*110*40mm (L*W*H)

Gas alarms for household and small catering kitchens

BYBXYQ-PA-224

Technical Parameters

Working power supply: Metal appearance DC 12V	Service life: Carbon monoxide sensor: 3 years; Propane sensor: 5 years
Power: DC 12V<300mA	LED indications: green, blue, yellow, and red
Sensor type: propane: catalytic combustion sensor; Carbon monoxide: Electrochemical sensor	Alarm volume: > 70db (1m directly ahead)
Applicable gases: propane and carbon monoxide	Control output interface: DC12V: connected to solenoid valve or robotic arm
Sampling method: free diffusion	Relay output interface: DC12V: switch output or pulse output
Alarm setting value: Propane: 8% LEL; Carbon monoxide: 190ppm	Shell protection level: IP51
Alarm error: Propane: ± 3% LEL; Carbon monoxide: ± 50ppm	Installation environment: Temperature: -10 °C~55 °C;
Response time: Propane: < 30 seconds; Carbon monoxide: ≤60 seconds	Humidity: ≤ 95% RH (without condensation)
Range: Propane: 0-20LEL; Carbon monoxide: 0-500ppm	Atmospheric pressure: 86kPa~106kPa
Indication resolution: Propane: 1% LEL; Carbon monoxide: 1ppm	Installation method: wall mounted
	Product size: 165*115*38mm (L*W*H)

Independent Photoelectric Smoke Fire Detection Alarm

PG-S01

Product Features

- 1. Adopting microprocessor control
- 2. Featuring high reliability and low false positives
- 3. Equipped with on-site sound and light alarm and mute functions
- 4. Real time monitoring of smoke
- 5. Executive standard GB20517-2006

Technical Parameters

Working principle: photoelectric type
Working voltage: DC3V
Static current: < 15uA
Alarm current: < 20mA
Mute time: 60S (standard requirement<100S)
Working temperature: -10 °C~50 °C; Relative humidity: ≤ 95%
Alarm method: sound and light alarm
Alarm volume: ≥ 80db@3m
Net weight of product: approximately 125g (with battery)
Boundary dimension: 96 * 49mm (including mounting plate)

Independent Photoelectric Smoke Fire Detection Alarm

PG-S03

New Product

Product Features

- 1. Adopting microprocessor control
- 2. Featuring high reliability and low false positives
- 3. Equipped with on-site sound and light alarm and mute functions
- 4. Real time monitoring of smoke
- 5. Executive standard GB20517-2006

Technical Parameters

Working principle: photoelectric type
Working voltage: DC3V
Static current: < 15uA
Alarm current: < 20mA
Mute time: 60S (standard requirement<100S)
Working temperature: -10 °C~50 °C; Relative humidity: ≤ 95%
Alarm method: sound and light alarm
Alarm volume: ≥ 80db@3m
Net weight of product: approximately 125g (with battery)
Boundary dimension: 96 * 49mm (including mounting plate)

Independent Photoelectric Smoke Fire Detection Alarm

PA-447/447NB

New Product

Product Features

- 1. Adopting microprocessor control
- 2. Featuring high reliability and low false positives
- 3. Equipped with on-site sound and light alarm and mute functions
- 4. Real time monitoring of smoke
- 5. Executive standard GB20517-2006

Technical Parameters

Working voltage: DC3V
Static current: < 15uA
Alarm current: < 200mA
Working temperature: -10 °C~50 °C
Relative humidity: ≤ 95% RH, non condensing
Alarm method: sound and light alarm
Alarm volume:>80db
Battery low voltage: 2.6V low voltage alarm
Boundary dimension: 102 * 42mm

Independent Photoelectric Smoke Fire Detection Alarm

PG-S02

New Product

Product Features

- 1. Adopting microprocessor control
- 2. Featuring high reliability and low false positives
- 3. Equipped with on-site sound and light alarm and mute functions
- 4. Real time monitoring of smoke
- 5. Executive standard GB20517-2006

Technical Parameters

Working principle: photoelectric type
Working voltage: DC3V
Static current: < 15uA
Alarm current: < 20mA
Mute time: 60S (standard requirement<100S)
Working temperature: -10 °C~50 °C; Relative humidity: ≤ 95%
Alarm method: sound and light alarm
Alarm volume: ≥ 80db@3m
Net weight of product: approximately 125g (with battery)
Boundary dimension: 96 * 49mm (including mounting plate)

Temperature & Humidity Sensor

PG-1001W/1001Z

New Product

ZigBee Technical Parameters

Input Voltage: DC3V
Static Current: <5uA
Alarm Current: <10mA
Low Voltage Threshold: <2.68V
ZigBee: IEEE802.15.4
Working frequency:2.400-2.484GHz
Detection Temperature: -10°C~+60°C
Detection Humidity: 0~100%RH
Working Temperature: -10°C~+60°C
Working Humidity: >95%RH
Product Dimension: 76*32*20mm

WiFi Technical Parameters

Input Voltage: DC3V
Static Current: <100uA
Alarm Current: <30mA
Low Voltage Threshold: <2.4V
Wi-Fi:802.11/b/g/n
Working frequency:2.400-2.484GHz
Detection Temperature: -10°C~+60°C
Detection Humidity: 0~100%RH
Working Temperature: -10°C~+60°C
Working Humidity: max.90%RH
Product Dimension: 76*32*20mm

Combustible Gas Detector

PA-816- I

New Product

Technical Parameters

Working power supply: AC110V~240V	Power: < 2W
Sensor type: catalytic combustion sensor	Alarm setting value: 8% LEL
Alarm error: ± 3% LEL	Response time:<30 seconds
Sensor service life: 3 years	Alarm volume:>70db (1m directly ahead)
Atmospheric pressure: 86kpa~106kpa	Installation method: wall mounted
Control output interface: DC12V: connected to solenoid valve or robotic arm	
Applicable gases: methane (CH4), natural gas, propane (C3H8), liquefied gas (optional)	
Installation environment: Temperature: -10 °C~55 °C; Humidity: ≤ 95% RH (without condensation);	
Executive standard: GB15322.2-2019	
Product size: 111×71×38.5mm	

Combustible Gas Detector

PA-816- II

New Product

Technical Parameters

Working power supply: AC110V~240V	Power: < 2W
Sensor type: catalytic combustion sensor	Alarm setting value: 8% LEL
Alarm error: ± 3% LEL	Response time:<30 seconds
Sensor service life: 3 years	Alarm volume:>70db (1m directly ahead)
Atmospheric pressure: 86kpa~106kpa	Installation method: wall mounted
Control output interface: DC12V: connected to solenoid valve or robotic arm	
Applicable gases: methane (CH4), natural gas, propane (C3H8), liquefied gas (optional)	
Installation environment: Temperature: -10 °C~55 °C; Humidity: ≤ 95% RH (without condensation);	
Executive standard: GB15322.2-2019	
Product size: 111×71×38.5mm	

Combustible Gas Detector

PA-816-III

New Product

Technical Parameters

Working power supply: AC110V~240V	Power: < 2W
Sensor type: catalytic combustion sensor	Alarm setting value: 8% LEL
Alarm error: ± 3% LEL	Response time:<30 seconds
Sensor service life: 3 years	Alarm volume:>70db (1m directly ahead)
Atmospheric pressure: 86kpa~106kpa	Installation method: wall mounted
Control output interface: DC12V: connected to solenoid valve or robotic arm	
Applicable gases: methane (CH4), natural gas, propane (C3H8), liquefied gas (optional)	
Installation environment: Temperature: -10 °C~55 °C; Humidity: ≤ 95% RH (without condensation);	
Executive standard: GB15322.2-2019	
Product size: 111×71×38.5mm	

Independent Carbon Monoxide Alarm

PG-C01

New Product

Technical Parameters

Working Voltage	DC 3V(2x AAbattery)	Battery Lifespan	3years
Standby Current	≤ 25 uA	Working Temperature	0°C~40°C
Alarm Current	≤25 mA	Working Humidity	Max.95%RH
Detecting Range	0~999ppm	Installation	wall mounting or table top
Alarm Output	Light and acoustic alarm	Standards Reference	EN50291: 2018
Sound Level	≥85 db@ 3m	Dimensions	115*28mm
Sensor Lifespan	7 years	Weight	Approx.145g(incl.batteries)

NB/Independent Carbon Monoxide Alarm
PG-C02

WIFI+GSM/4G Alarm System

PG-109

Product Features

- > Built-in 10 languages , free to switch
- > Support 99 wireless zones , 4 wired zones
- > LCD menu display built-in clock intuitive and convenient
- > WIFI + GSM/4G dual network work together , support APP push/SMS/voice monitoring etc multi-channel alarm ways
- > Up to 5 groups of preset alarm phone numbers , SMS on/off and voice on/off can be set respectively .
- > Support many defense zone types setting such as of entry/exit zone , lindoor zone , perimeter zone , 24-hour zone , doorbell , etc
- > Wireless detector low battery alert door open alert .
- > Built-in wireless transmitter to configure wireless sirensand control smart appliances .
- > Remote control and parameter setting via SMS & APP

Technical Parameters

-Input Voltage: DC5V (Micro USB Standard Interface Power Supply)
-Working Current: <500mA
-Siren Output: <80db in 1 meter
-Wireless Frequency: 433Mhz/2.4G/125K
-Wireless Coding: eV1527
-GSM System: 850/900/1800/1900MHz
-WIFI System: IEEE802.11b/g/n wireless standard
-Spare Battery: 3.7V/1000mAh
-Working Temperature: -10 ~ 55 °C
-Relative Humidity: < 80% (no condensation)
-Product Size: 182*112*16MM (L x H x T)

WIFI+GSM/4G Alarm System

PG-110

Product Features

- > Built-in 10 languages , free to switch
- > Support 99 wireless zones , 4 wired zones
- > LCD menu display built-in clock intuitive and convenient
- > WIFI + GSM/4G dual network work together , support APP push/SMS/voice monitoring etc multi-channel alarm ways
- > Up to 5 groups of preset alarm phone numbers , SMS on/off and voice on/off can be set respectively .
- > Support many defense zone types setting such as of entry/exit zone , lindoor zone , perimeter zone , 24-hour zone , doorbell , etc
- > Wireless detector low battery alert door open alert .
- > Built-in wireless transmitter to configure wireless sirensand control smart appliances .
- > Remote control and parameter setting via SMS & APP

Technical Parameters

-Input Voltage: DC5V (Micro USB Standard Interface Power Supply)
-Working Current: <150mA
-Wireless Frequency: 433Mhz
-Wireless Coding: eV1527/eV2262
-WIFI System: IEEE802.11b/g/n wireless standard
-Spare Battery: 3.7V/1000mAh
-Working Temperature: -10 ~ 55 °C
-Relative Humidity: < 93% (no condensation)
-Product Size: 110*110*16MM (L x H x T)

WIFI+GSM/4G Alarm System

PG-103

Product Features

- 1. Adopting a 2.4 inch TFT color display screen
- 2. Adopting a 32-bit Cortex M 3 core CPU master with powerful embedded performance
- 3. Support multiple communication services for WIFI/GSM/4G/GPRS
- 4. Equipped with voice prompt function, supporting 9 commonly used national languages
- 5. Equipped with a high decibel alarm signal, the sound can reach 115dB
- 6. Built in doorbell function, emergency help function
- 7. Equipped with battery low voltage alarm function
- 8. Equipped with anti disassembly alarm function

Technical Parameters

-Input Voltage: DC5V (Micro USB Standard Interface Power Supply)
-Working Current: <200mA
-Siren output:<500mA
-Wireless Frequency: 433Mhz
-Wireless Coding: eV1527
-GSM System: 850/900/1800/1900MHz
-WIFI System: IEEE802.11b/g/n wireless standard
-Spare Battery: 3.7V/1000mAh
-Working Temperature: -10 ~ 55 °C
-Relative Humidity: < 93% (no condensation)
-Product Size: 185*125*14.7MM (L x H x T)

WIFI+GSM/4G Alarm System

PG-107

Product Features

- 1. Adopting a 4.3 inch TFT color display screen
- 2. Adopting a 32-bit Cortex M 3 core CPU master with powerful embedded performance
- 3. Support multiple communication services for WIFI/GSM/4G/GPRS
- 4. Equipped with voice prompt function, supporting 9 commonly used national languages
- 5. Equipped with a high decibel alarm signal, the sound can reach 115dB
- 6. Built in doorbell function, emergency help function
- 7. Equipped with battery low voltage alarm function
- 8. Equipped with anti disassembly alarm function

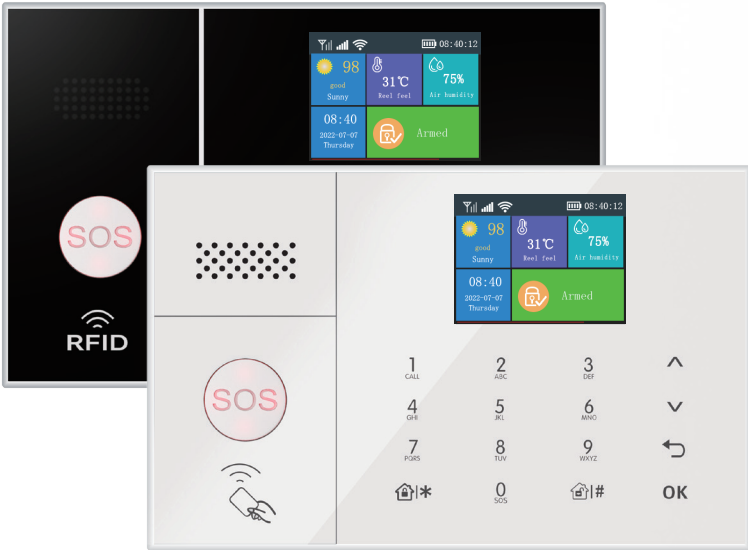

Technical Parameters

-Input Voltage: DC5V (Micro USB Standard Interface Power Supply)
-Working Current: <200mA
-Siren output:<560mA
-Wireless Frequency: 433Mhz
-Wireless Coding: eV1527
-GSM System: 850/900/1800/1900MHz
-WIFI System: IEEE802.11b/g/n wireless standard
-Spare Battery: 3.7V/1000mAh
-Working Temperature: -10°C ~ 55 °C.
-Relative Humidity: < 93% (no condensation)
-Product Size: 160*98*19MM (L x H x T)

WIFI+GSM/4G Alarm System

PG-108

Product Features

- 1. Adopting a 2.4 inch TFT color display screen
- 2. Adopting a 32-bit Cortex M 3 core CPU master with powerful embedded performance
- 3. Support multiple communication services for WIFI/GSM/4G/GPRS
- 4. Equipped with voice prompt function, supporting 11 commonly used national languages
- 5. Equipped with a high decibel alarm signal
- 6. Built in doorbell function, emergency help function
- 7. Equipped with battery low voltage alarm function
- 8. Equipped with anti disassembly alarm function

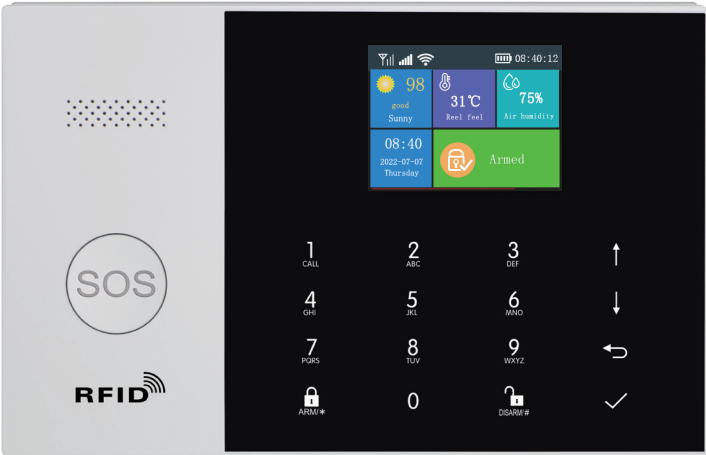

Technical Parameters

-Input Voltage: DC5V (Micro USB Standard Interface Power Supply)
-Working Current: <250mA
-Siren output:<600mA
-Wireless Frequency: 433Mhz
-Wireless Coding: eV1527
-GSM System: 850/900/1800/1900MHZ
-WIFI System: IEEE802.11b/g/n wireless standard
-Spare Battery: 3.7V/1000mAh
-Working Temperature: -10°C ~ 55 °C
-Relative Humidity: < 93% (no condensation)
-Product Size: 180*115*23MM (L x H x T)

WIFI+GSM/4G Alarm System

PG-106

Product Features

- 1. Adopting a 4.3 inch TFT color display screen
- 2. Adopting a 32-bit Cortex M 3 core CPU master with powerful embedded performance
- 3. Support multiple communication services for WIFI/GSM/4G/GPRS
- 4. Equipped with voice prompt function, supporting 9 commonly used national languages
- 5. Equipped with a high decibel alarm signal, the sound can reach 115dB
- 6. Built in doorbell function, emergency help function
- 7. Equipped with battery low voltage alarm function
- 8. Equipped with anti disassembly alarm function

Technical Parameters

-Input Voltage: DC5V (Micro USB Standard Interface Power Supply)
-Working Current: <250mA
-Siren output: <620mA
-Wireless Frequency: 433Mhz
-Wireless Coding: eV1527
-GSM System: 850/900/1800/1900MHz
-WIFI System: IEEE802.11b/g/n wireless standard
-Spare Battery: 3.7V/1000mAh
-Working Temperature: -10°C ~ 55 °C
-Relative Humidity: < 93% (no condensation)
-Product Size: 160*98*18MM (L x H x T)

WIFI Alarm System

PW-150W

Product Features

- 1. Adopting a CPU master with powerful embedded performance based on 32-bit Cortex-M3 core
- 2. WiFi networking alarm, supporting APP push, ensuring stable and reliable alarm performance
- 3. Support 4 remote controls and 200 wireless detectors to learn and store locations
- 4. Support main door, lobby, distress, bedroom, window, balcony, perimeter, smoke Multiple alarm types settings for gas, carbon monoxide, water leakage, etc
- 5. Support multiple extended alarm situations such as main power failure and backup battery shortage
- 6. Equipped with wireless sensor battery voltage low alarm function
- 7. Support for external defense, left behind defense, 24-hour defense zone, doorbell, etcMultiple alarm modes
- 8. Support voice operation prompts

Technical Parameters

-Input Voltage: AC220V
-Alarm Current: 3.5W
-Wireless Frequency: 433Mhz
-Wireless Coding: eV1527/eV2262
-WIFI System: IEEE802.11b/g/n wireless standard
-Working Temperature: -10°C ~ 55 °C
-Relative Humidity: < 93% (no condensation)
-Product Size: 79*46MM

WIFI+GSM/4G Alarm System

PG-500

Product Features

- Supports 2G/4G/WiFi communication technology, enabling dial-up alarms and SMS notifications, And APP notifications.
- 8-way wired, 200 way wireless defense zone [supports renaming].
- Remote control learning code matching, can learn 8 wireless remote controls.
- LCD graphic display screen with built-in perpetual calendar clock,
- Full process live voice prompts, more user-friendly installation settings and daily operations.
- Automatically send a short message prompt when the battery is low.
- Short message prompts for power outage and communication recovery.
- Built in intercom speaker for duplex intercom function.
- Built in lithium battery rechargeable battery pack, with power outage alarm function.
- Support the main entrance, lobby, distress, bedroom, windows, balcony, perimeterMultiple alarm types such as smoke, gas, carbon monoxide, and water leakage are set.
- Support multiple alarm modes such as outbound defense, left behind defense, 24-hour defense zone, and doorbell.

Technical Parameters

·Input voltage: DC5V
·Working current: off screen<100mA, on screen<200mA
·Standby current:<55mA
·Alarm current:<600mA
·Wireless frequency: 433MHz (optional other frequencies)
·Encoding method: ASK Ve1527 (330K)/2262 (4.7M)
·GSM frequency band: 850/900/1800/1900MHz
·Backup battery: 3.7V/1000mAh lithium battery
·Alarm Loudness:> 100dB@1m
·Wireless distance:<100m
·Working temperature: -10 °C -55 °C
·Relative humidity:<80% RH (without condensation)
·Product size: 181 * 135.6 * 33mm (l * h * t)

NB/4G Alarm System
PG-122

Product Features

- 2.4 inch TFT color display screen.
- Embedded CPU master with powerful performance based on 32-bit Cortex-M3 core.
- GPRS network alarm supports multi-channel alarm modes such as fire Internet of Things cloud platform, applet, official account, SMS, voice, etc., ensuring stable and reliable alarm performance.
- Support remote silencing, resetting, alarming, and setting of mini programs to facilitate user management of devices.
- Supports 512 wireless defense zones, 8 wired defense zones, and 1 wired alarm signal, as well as one relay normally open or normally closed signal output
- Support the setting of multiple defense zone names such as main door, lobby, distress, bedroom, window, balcony, perimeter, smoke, gas, carbon monoxide, water leakage, etc.
- Support the warning of main power failure and backup battery shortage.
- Support menu display and voice operation prompts in multiple languages.

Technical Parameters

● Input voltage: DC 5V
● Backup battery: 3.7V/1000mA
● Working current: < 70mA
● Alarm output: < 400mA
● Wireless frequency: 433Mhz
● Wireless encoding: eV1527
● GSM format: 850/900/1800/1900MHz
● Operating temperature: -10 °C~55 °C
● Product size: 260*198*46mm (l * h * t)

WIFI+GSM Alarm System

PG-121

Product Features

- 1. Adopting a 2.4 inch TFT color display screen;
- 2. Support multiple communication services for WIFI/GSM/4G/GPRS
- 3. Equipped with voice prompt function, supporting 11 commonly used national languages
- 4. Equipped with a high decibel alarm signal, the sound can reach 115dB
- 5. Built in doorbell function, emergency help function,
- 9. Equipped with battery low voltage alarm function;
- 7. Equipped with anti disassembly alarm function, providing warning for doors and windows not closed

Technical Parameters

● Input voltage: DC 5V
● Backup battery: 3.7V/1000mA
● Working current: < 150mA
● Wireless frequency: 315/433/868/915Mhz (optional)
● Wireless encoding: eV1527
● GSM format: 850/900/1800/1900MHz
● WIFI format: IEEE802.11b/g/n wireless standard
● Operating temperature: -10 °C~55 °C
● Product size: 265 * 265 * 79mm (l * h * t)

NB/Independent Carbon Monoxide Alarm

PA-007N/007D

Technical Parameters

Power supply: DC 4.5V (3 AA alkaline or carbon batteries)
Static current: < 30uA
Alarm current: < 35mA
Working temperature: 0 ° C~55 ° C
Working humidity: 10%~90% RH
Buzzer sound: > 70dB
Battery life: up to 1 year
Green light: normal monitoring (interval of 80S)
Red light: alarm
Fault yellow light: flashing during fault
Lifetime yellow light: Flashes when expired
Sensor life: up to three years
Low voltage alarm:<3.7V
Product size: 100.5 * 36mm

NB/Independent Carbon Monoxide Alarm

PA-008N/008D

Technical Parameters

Power supply: DC 4.5V (3 AA alkaline or carbon batteries)
Static current: < 30uA
Alarm current: < 35mA
Working temperature: 0 ° C~55 ° C
Working humidity: 10%~90% RH
Buzzer sound: > 70dB
Battery life: up to 1 year
Green light: normal monitoring (interval of 80S)
Red light: alarm
Fault yellow light: flashing during fault
Lifetime yellow light: Flashes when expired
Sensor life: up to three years
Low voltage alarm:<3.7V
Product size: 100 * 35.5mm

Independent Carbon Monoxide Alarm
PA-002W

Product Features

- 1. Adopting low-power MCU batteries with a lifespan of over 1 year;
- 2. 9V alkaline battery or carbon battery;
- 3. Carbon monoxide sensitivity: 300PPM 3 minute alarm;
Carbon monoxide sensitivity: 100PPM, alarm in 10 to 40 minutes;
Carbon monoxide sensitivity: 50PPM, 60-90 minute alarm;
- 4. Battery life: at least 1 year;
- 5. Low voltage alarm: 6V, mute function;
- 6. Real time LCD display function;
- 7. Sensor fault detection function (indicated by yellow LED).

Technical Parameters

Working voltage: 9V battery
Static current: <30mA
Alarm current: <35mA
Alarm loudness: ≥ 80dB (1m)
Battery life: at least one year
Working temperature: 0 °C~55 °C
Relative humidity: 10%~90% RH, non condensing
Low voltage alarm: ≤ 6V
Product size: 126 * 126 * 35.5mm

Independent carbon monoxide alarm
PA-003W

Product Features

- >Imported high stability dedicated logic chip and gas probe.
- >Built-in small speaker and independent on-site alarm.
- >Self-check, one-click test.
- > LCD screen to display gas concentration.
- >Easy installation, install to use.

Alarm concentration:

- >At 30ppm makes alarm within 120 minutes
- >At 50ppm makes alarm within 60-90 minutes
- >At 100ppm makes alarm within 10-40 minutes
- >At 300ppm, makes alarm within 3 minutes
- >Sensor: using an innovative imported electrochemical carbon monoxide sensor

Technical Parameters

Working power supply: AC 220V or 9V battery
Static current: <50mA
Alarm current: <30mA
Alarm loudness: ≥ 85dB (1m)
Alarm output: AC220V, normally open or normally closed
Working temperature: 0 °C~55 °C
Relative humidity: 10%~90% RH, non condensing
Low voltage alarm: ≤ 6.8V
Product size: 125 * 125 * 38mm

Combustible Gas Detector
PA-209R/209L/209D

Product Features

- 

On site alarm
- 

Simple installation
- 

high sensitivity
- 

Real time monitoring
- 

Flame retardant material
- 

Ultra low power consumption

Technical Parameters

Working voltage: AC 220V
Power consumption: Static current: <100mA, alarm current: <150mA
Alarm range: Natural gas: 3%~15% LEL
Response time: <30s
Alarm sound: > 70 decibels (1m away from the front)
Installation method: wall mounted
Gas sensing element: service life of three years
Environmental temperature: -10 ° C~55 ° C
Relative humidity: 10%~95% RH
Air pressure: 86~106Kpa
Alarm method: normally open/normally closed+solenoid valve
Usage: Can be used independently or online
Executive standard: GB15322.2-2003
Boundary dimension: 122 * 68 * 30MM

Combustible Gas Detector
PA-215R/PA-215L/PA-215

Technical Parameters

Working voltage: AC220V ± 15%, 50HZ
Power consumption: standby ≤ 3W, alarm ≤ 6W
Alarm concentration: 6% LEL
Alarm sound intensity: ≥ 70dB (1 meter ahead)
Working environment: 0 °C~+55 °C, relative humidity<95% RH
Stability: Long term working alarm concentration error not greater than ± 5% LEL
Repeatability: The error in alarm concentration during repeated testing shall not exceed ± 3% LEL
Alarm concentration error: ± 3% LEL
Alarm method: sound and light alarm; Linkage solenoid valve output; Normally open/normally closed output (optional)
Wireless transmission: 1527 encoding, 330K oscillation resistor, 315M/433M frequency. (Optional)
Sampling method: natural diffusion
Detected gas: natural gas (CH4)
Executive standard: GB15322.2-2003
Boundary dimension: 122 * 68 * 30MM

Combustible Gas Detector
PA-210W/210N

Product Features

- > Real-time reporting of alarm concentration.
- > With voice prompt alarm function.
- > Support push gas alarm to the cloud.
- > Support remote self-inspection of device.
- > Support reporting NB signal strength.
- > Anti-electromagnetic interference, anti-radio frequency interference.
- > Support APP push, call and SMS push alarm information.
- > Support access to telecommunications and mobile cloud platforms, and support access to private cloud platforms.
- > Adopt gas sensor with high sensitivity, high stability and long life.

Technical Parameters

Input voltage: DC 5V (powered by micro USB standard interface)
Working current: <150mA
Response time: <30s
Gas sensing element: service life of three years
Installation method: wall mounted
Air pressure: 86~106Kpa
Working temperature: 0~55 °C
Relative humidity: <80% (no condensation)
Product size: 99.5x99.5X34mm

Combustible Gas Detector
PA-216D/216N

Product Features

Easy installation

High sensitivity

90db

Sound and light alarm

Ultra low power consumption

Precise detection

Technical Parameters

Input voltage: DC 5V (powered by micro USB standard interface)
Static power consumption: <1W, <2W during alarm
Alarm concentration: natural gas 0.1%~1%
Gas response recovery time: <30s
Installation method: wall mounted
Working temperature: -10 °C~55 °C,
Working humidity: <97% RH
Executive standard: GB15322.2-2003
Product size: 109 * 34mm

Combustible Gas Detector

PA-217NB

Product Features

- 

Easy installation
- 

High sensitivity
- 

Precise detection
- 

Sound and light alarm
- 

Ultra low power consumption
- 

80db

Technical Parameters

Working voltage: AC 220V/50Hz
Static power consumption:<2W; Alarm power consumption<5W
Alarm concentration: 8% LEL
Gas response recovery time: < 30S
Working environment: humidity: ≤ 97% RH; Temperature: -10 °C~50 °C
Detected gas: methane (CH4)
Executive standard: GB15322.2-2019
Service life: three years
Product size: 110 * 60 * 33mm

Combustible Gas Detector

PA-219DE/PA-219NB

Product Features

- 

On site alarm
- 

Simple installation
- 

high sensitivity
- 

Real time monitoring
- 

Flame retardant material
- 

Ultra low power consumption

Technical Parameters

Working voltage: AC 220V/50Hz
Standby current: < 10MA
Standby power: < 1W; Alarm power<3W
Range: 0-16% LEL
Alarm concentration: 8% LEL
Gas response recovery time: < 30S
Working environment: humidity ≤ 95% RH
Temperature: -10 °C~55 °C
Detection gas: methane, propane
Executive standard: GB15322.2-2019
Service life: three years
Product size: 110 * 70 * 45mm

Combustible Gas Detector
PA-220/PA-220NB

Product Features

- 

On site alarm
- 

Simple installation
- 

high sensitivity
- 

Real time monitoring
- 

Flame retardant material
- 

Ultra low power consumption

Technical Parameters

Working voltage: AC 220V/50Hz
Standby power:<1W; Alarm power<3W
Range: 0-16% LEL
Alarm concentration: 8% LEL
Gas response recovery time: < 30S
Working humidity: 93% ± 3% RH
Working temperature: -10 °C~50 °C
Executive standard: GB15322.2-2019
Service life: three years
Detection gas: methane, propane
Product size: 122 * 68 * 35.5mm

Combustible Gas Detector
PA-816

Technical Parameters

Working power supply: AC110V~240V	Power: < 2W
Sensor type: catalytic combustion sensor	Alarm setting value: 8% LEL
Alarm error: ± 3% LEL	Response time:<30 seconds
Sensor service life: 3 years	Alarm volume:>70db (1m directly ahead)
Atmospheric pressure: 86kpa~106kpa	Installation method: wall mounted
Control output interface: DC12V: connected to solenoid valve or robotic arm	
Applicable gases: methane (CH4), natural gas, propane (C3H8), liquefied gas (optional)	
Installation environment: Temperature: -10 °C~55 °C; Humidity: ≤ 95% RH (without condensation);	
Executive standard: GB15322.2-2019	
Product size: 111 × 70 × 45.6mm	

Smoke Detector
PA-441B

Product Features

- > Exclusive smoke intelligent algorithm.
- > High sensitivity, zero false alarms, strong anti-interference.
- > High sensitivity and strong stability.
- > Install and use, free of wiring and plug-in troubles.
- > Ceiling type easy installation.
- > Super tweeter on-site buzzer alarm.
- > The detector is powered by a battery, and the battery life can reach more than one year.
- > Low power consumption, with an undervoltage indicator signal when the battery power supply is insufficient.
- > Support access to telecommunications and mobile cloud platforms, and support access to private cloud platforms.

Technical Parameters

Power supply: DC3V alkaline battery
Quiescent current: <15UA
Alarm current: <30mA
Working temperature: -10 ° C ~ +50 ° C
Relative humidity: ≤ 95% RH, non condensing
Executive standard: GB20517-2006
Alarm sound: > 80dB
Low voltage of battery: <2.3V
External dimensions: 90 * 90 * 35mm

Smoke detector
PA-441D/441N/441W

Product Features

- > Exclusive smoke intelligent algorithm.
- > High sensitivity, zero false alarms, strong anti-interference.
- > High sensitivity and strong stability.
- > Install and use, free of wiring and plug-in troubles.
- > Ceiling type easy installation.
- > Super tweeter on-site buzzer alarm.
- > The detector is powered by a battery, and the battery life can reach more than one year.
- > Low power consumption, with an undervoltage indicator signal when the battery power supply is insufficient.
- > Support access to telecommunications and mobile cloud platforms, and support access to private cloud platforms.

Technical Parameters

Power supply: DC9V alkaline battery
Quiescent current: <15UA
Alarm current: <200mA
Working temperature: -10 ° C ~ +50 ° C
Relative humidity: ≤ 95% RH, non condensing
Executive standard: GB20517-2006
Alarm sound: > 80dB
Battery low voltage: <6.5V+0.2V
Boundary dimension: 106 * 106 * 41.5mm

Smoke detector
PA-437D

CE 22
0905
EN 14604:2005

Product Features

Live strobe and sound alarm

Easy installation

High sensitivity

Real time monitoring

Photoelectric sensor

Flame retardant material

Low power consumption

> 85dB

Technical Parameters

Power supply: DC9V battery (6LR61/9V)
Quiescent current: <20uA
Alarm current: <150mA
Sensitivity: 0.05-2.0dB/m
Working temperature: 0-50 ° C
Relative humidity: ≤ 95% RH, non condensing
Alarm sound: ≥ 85dB@3m
Boundary dimension: 107 * 107 * 45mm

WiFi Smoke detector
PA-443D/443W

Product Features

- > Tuya cloud platform APP alarm information push.
- > High sensitivity, low power consumption, strong stability.
- > Ultra long life battery power supply.
- > Install to use, no wiring plug trouble.
- > Ceiling installation.
- > Live alarm with ultra loud buzzer.
- > 360°all-round alarm.
- > ABS flame retardant shell material.
- > Using high-performance microprocessor.

Technical Parameters

Power supply: DC9V battery (6LR61/9V)
Quiescent current: <20uA
Alarm current: <150mA
Sensitivity: 0.05-2.0dB/m
Working temperature: 0-50 ° C
Relative humidity: ≤ 95% RH, non condensing
Alarm sound: ≥ 85dB@3m
Battery low voltage alarm: ≤ 7.0V ± 0.2V
Boundary dimension: 107 * 107 * 45mm

Wifi Temperature & Humidity Sensor
PA-010W

Product Features

Mobile phone monitoring

Temperature limit alarm

Scene linkage

Low battery reminder

Industrial sensing

History record

Technical Parameters

Working voltage: DC4.5V (3 AA alkaline batteries or carbon batteries)
Standby current: ≤ 30uA
Working current: <50mA
Working environment: -40 ° C-125 ° C
Product size: 69.5X69.5X26mm

Wireless Infrared Detector
PA-86R

Product Features

- > Binary infrared detection elements and Micro processing chip, high intelligent, high sensitivity.
- > Detective range can get to 12m, horizontal angle 110°, vertical angle 15°.
- > Alarm signal transmission by RF.
- > Wall mounting, save space.

Technical Parameters

Working voltage: 9V
Standby current: ≤ 20-30uA
Alarm current: <25mA
Transmission frequency: 433Mhz
transmission distance: ≥ 120m
Encoding method: eV1527
Maximum coverage area: 12 * 12m
Product size: 60.5 * 110.4 * 48mm

Wireless Infrared Detector

PA-92R

Product Features

- >Adopt CMOS low-power consumption microprocessor.
- >Low voltage alert function
- >Anti high frequency interference.
- >Transfer digital wireless signals.
- >Intelligent logic analysis to avoid fault alarm.
- >Anti white light.
- >Anti radiation.
- >Detecting illegal intrusion.

Technical Parameters

Working voltage: 3V (AAA * 2 alkaline battery)
Standby current: ≤ 15uA
Alarm current:<25mA
Transmission frequency: 315/433 (ASK)/868 (FSK) Mhz (optional)
Launch distance: ≥ 80m (open distance)
Transmission power: ≤ 10dB
Encoding method: eV1527
Detection range: 8-12m (25 °C)
Operating temperature: -10~55 °C
Product size: 40 * 105 * 26mm

Wireless Door Sensor

PB-70

Product Features

1. Sound prompt
2. Low power design
3. Long service life of No.5 alkaline battery
4. Applicable to a variety of fields, epidemic prevention and isolation, intelligent fire control, door and window detection
5. Actual monitoring status and power of platform management
6. Support multi platform, mobile, telecom, Unicom and kaiwan
7. 5dB antenna, strong signal
8. Support platform management, wechat push, phone, SMS and other alarm notifications

Technical Parameters

Working voltage: 3V (2 No. 5 batteries)
Quiescent current:<20 uA
Working temperature: -10~+55 °C
Installation method: wall mounted
Low voltage alarm value: < 2.6V
Working current: < 80mA
Working humidity:<95%
Positive and negative pole sensing distance: 25mm
Product size: Emitter: 100.5 * 45 * 21.5mm
Magnetic stripe: 46 * 16 * 15mm

NB/WiFi Wireless Door Sensor
PB-69N/69W

产品宣传页

Product Features

- > Detect whether doors, windows, drawers, etc. have been opened or moved illegally.
- > Anti-tamper design, timely alarm for illegal demolition, safer protection.
- > Easy installation: wireless communication, built-in battery, simple and convenient installation, reducing construction time.
- > Easy maintenance: real-time monitoring of equipment operating status and battery voltage status.
- > Easy to manage: you can receive alarm notifications through the PC client platform, network SMS, etc., know the opening status of doors and windows in real time.
- > Low power consumption: battery life can reach more than one year.

Technical Parameters

Working voltage: 3V (2 batteries of No. 7)
Standby current: <20uA
Alarm current: <80mA
Standby time: 10-12 months
Working temperature: -10 °C~55 °C
Storage humidity: ≤ 95% RH
Product size: Magnetic stripe: 46 * 12 * 17.5mm
Emitter: 76 * 32 * 20mm

Wireless Door Sensor
PB-68R

Product Features

- > Door open/close alert.
- > Door/ window open / close detecting. Suitable for installation on door / window / glass.
- > Tamper alarm.
- > Easy installation, simple to use.

Technical Parameters

Working voltage: 3V
Transmission frequency: 315/433/868MHZ
Encoding method: EV1527
Launch distance: ≥ 120m (open)
Low voltage alarm: 2.3V
Storage humidity: ≤ 95% RH
Product size: Magnetic stripe: 11 * 44 * 13.5mm
Emitter: 30 * 68 * 15mm

NB/WiFi Wireless Door Sensor
PB-67R

Product Features

- >Exclusive door window sensor with sos button. Bring more safety to users.
- >Door/ window open / close detecting at a triggering distance of 10mm. Wireless transmission range can reach up to 80m.
- >No underreporting, no misreporting. Easy installation, simple to use.

Technical Parameters

Working voltage: DC 3V (button cell)
Static current: ≤ 1uA
Working current: ≤ 12mA
Working temperature: -10 °C~50 °C
Launch distance: ≥ 100m (open distance)
Undervoltage detection point: 2.2 ± 0.2V
Transmission frequency: 315/433/868MHZ (optional)
Encoding method: EV1527
Product size: Magnetic stripe: 10.2 * 40.2 * 12.8mm
Emitter: 23 * 60 * 13mm

WIFI Water Leakage Detector
PH-10

Product Features

- >Detector and sensor separated design.
- >High precision and sensitivity.
- >High stability and reliability.
- >Stick to use, free of tool installation.
- >Small and stylish design.
- >Real time detecting and alert of water leakage.

Technical Parameters

Working voltage: DC 3V (button cell)
Standby current:<5mA
Alarm current:<20mA
Working temperature: -10 °C~50 °C
Launch distance: ≥ 100m (open)
Transmission frequency: 433/868MHz/2.4GHz

Wireless Remote Controller
PF-50

Product Features

- >Coding mode: support both 1527.
- >80m wireless transmission distance in open area.
- >Global used standard wireless transmit, ASK modulation transmit.

Technical Parameters

Working voltage: DC 3V
Working current: 15mA
Oscillation mode: chip 1527
Transmission distance: 80-150m
Wireless frequency: 315/433MHZ (optional)
Product size: 56.6 * 32 * 10.6mm

SOS Button
PJ-12

Product Features

- >SOS emergency alarm.
- >Easy installation without wiring.
- >Elderly care.
- >Patient care.
- >Emergency help.

Technical Parameters

Working voltage: DC 3V (button cell)
Static current: ≤ 1uA
Dynamic current: ≤ 20mA
Oscillation resistance: 280-380K
Wireless frequency: 433.92MHz ± 100KHZ
Product size: 50 * 50 * 13mm

Wired Sound and Light Alarm
PE-514L

Product Features

- > Adopt ABS flame-retardant shell, high temperature resistance;
- > Super loud siren horn + flashing LED light;
- > Alarm sound: ≥90dB
- > Strong environmental applicability.
- > On-site alarm;
- > Original chip;

Technical Parameters

Working voltage: DC24VDC12V
Working current: 5-65mA
Flash intensity: ≥ 1.2WS
Flash cycle: ≤ 1.55s
Flash strobe life: ≥ 4000
Environmental temperature: -10~+55 °C
Environmental humidity: ≤ 95%
Size: 134X115X48mm

Wireless outdoor solar powered strobe siren
PE-523/523W

Product Features

- > Stylish and waterproof design, suitable for outdoor use.
- > High-intensity warning lights and high-decibel sirens, intense more warning.
- > Can be used as an alarm host, or a high-power sound and light siren, widely used.
- > Powered by solar energy.

Place of application

Home, shop, garage, warehouse, farm shed, etc. (especially suitable for the guarded places with large areas)

Technical Parameters

External power supply voltage: DC5V/1A
Solar panel output voltage: 5.0V
Standby current: <1 mA
Alarm current: < 150mA
Alarm sound pressure: > 100dB
Wireless frequency: 433MHz
Waterproof grade: IP65
Encoding method: supports EV1527/2262
Backup battery: 3.7V 1000mA lithium battery
Applicable temperature: -20 °C -55 °C
humidity: 40% -80% (non condensing)
Shell size: 164.3×124.3×59mm

Wireless Indoor Strobe Siren

PE-519R

Product Features

- >Stylish and suitable for indoor and outdoor use
- >Set high-intensity warning lights and high-decibel sirens, with more warning
- >Can be used as an alarm host, or a high-power sound and light siren, widely used

Place of application

Home, shop, garage, warehouse, farm shed, etc. (especially suitable for the guarded places with large areas)

Technical Parameters

Working voltage: DC5V/1A
Standby power consumption:<13 mA
Alarm current: < 230mA
Alarm sound pressure: > 90dB
Wireless frequency: 315/433MHz (optional)
Encoding method: SC1527IC/4.7MQ
Applicable temperature: -20 ° C -55 ° C,
Applicable humidity: 40% -80% (non condensing)
Product size: 81 * 81 * 36.2mm

Smart Wireless Doorbell

PJ-13-14

Product Features

- > Adopt the most stable music chip in the industry
- > 36 beautiful polyphonic ringtones, visitors press the button, the hub rings up inside
- > 8-level volume adjustable, different sound use in different environment
- > Long distance wireless transmission and low power consumption. Used for big house
- > Doorbell button can pair with doorbell hub
- > 150 square meters audible
- > Power-down memory function

Technical Parameters

Working voltage: AC110-240V
Wireless frequency: 433MHz
Encoding method: 1527/330KQ
Applicable temperature: -20 ° C~+55 °C
Applicable humidity: 40%~80% RH
Working distance: open 100m
Product size: 98.2×45.6×45mm (US standard)
89×40×15mm(button)

Smart Wireless Doorbell

PJ-16-19

Product Features

- > Adopt the most stable music chip in the industry
- > 36 beautiful polyphonic ringtones, visitors press the button, the hub rings up inside
- > 8-level volume adjustable, different sound use in different environment
- > Long distance wireless transmission and low power consumption. Used for big house
- > Doorbell button can pair with doorbell hub
- > 150 square meters audible
- > Power-down memory function

Technical Parameters

Working voltage: AC110-240V
Wireless frequency: 433MHz
Encoding method: 1527/330KQ
Applicable temperature: -20°C~+55°C
Applicable humidity: 40%~80% RH
Working distance: open 100m
Product size: 80 * 80 * 53mm (US standard)
80 * 80 * 72mm (European standard)
70 * 70 * 18.3mm (button)

Smart Wireless Doorbell

PJ-15-16

Product Features

Working distance: open 100m
Product size: 80 * 80 * 53mm (US standard)
80 * 80 * 72mm (European standard)
45.5 * 45.5 * 17mm (button)

Wireless Smart Alarm Welcomer

PM-101

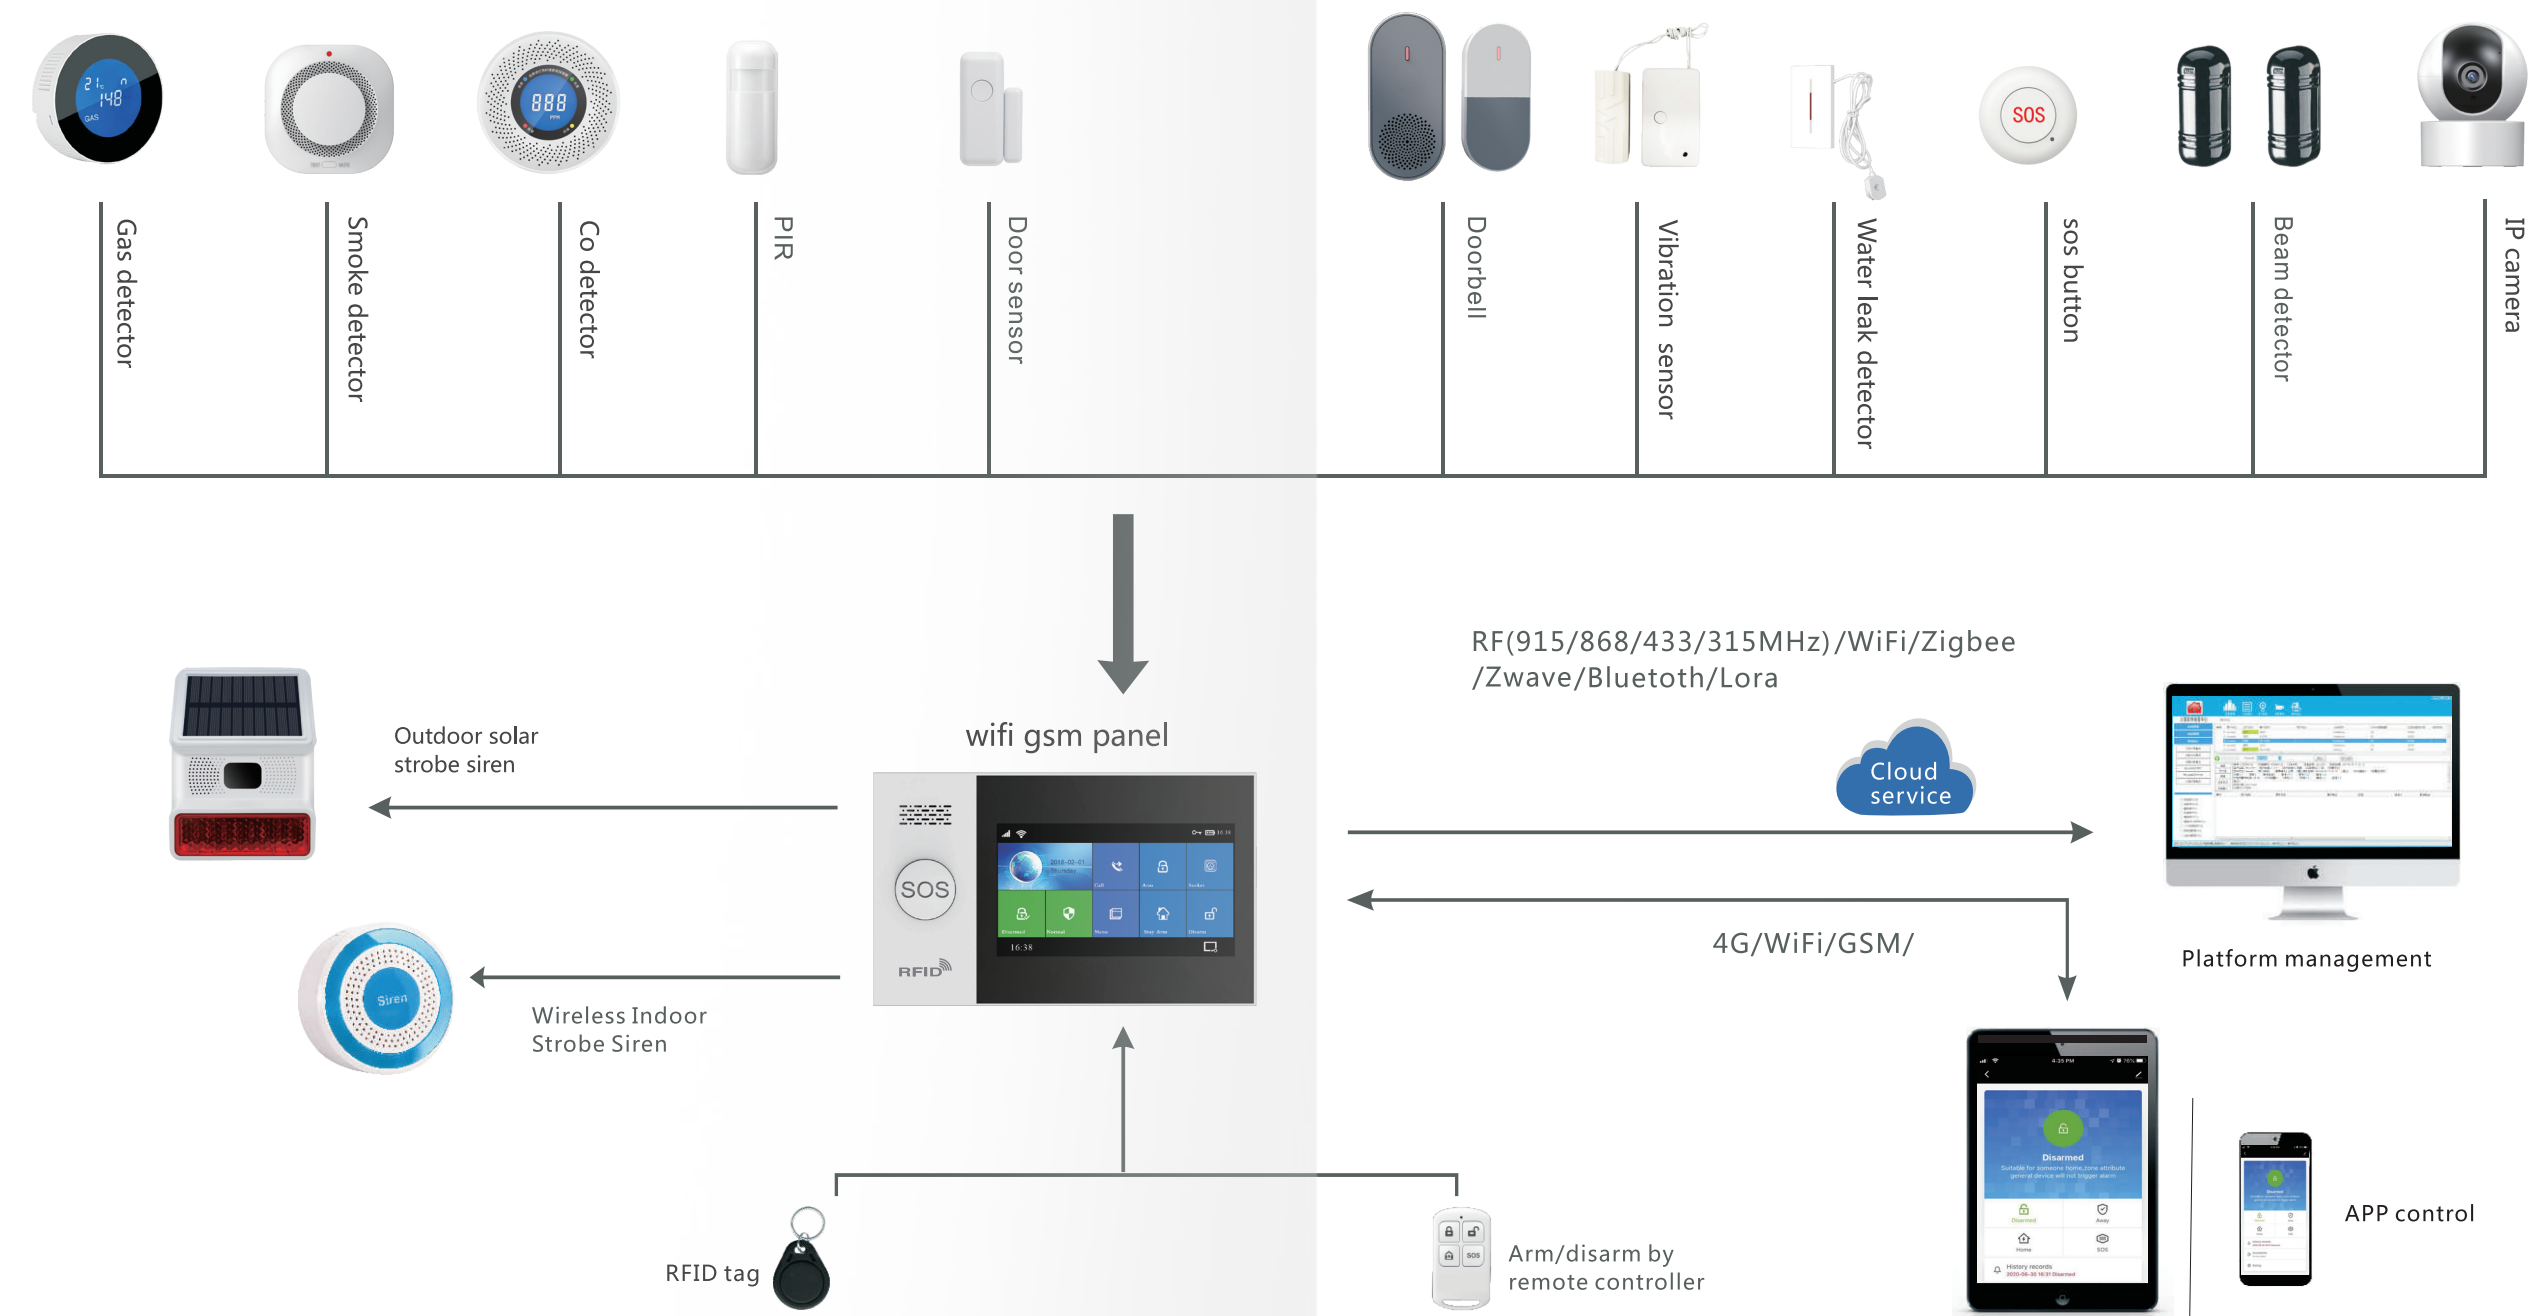

Product Features

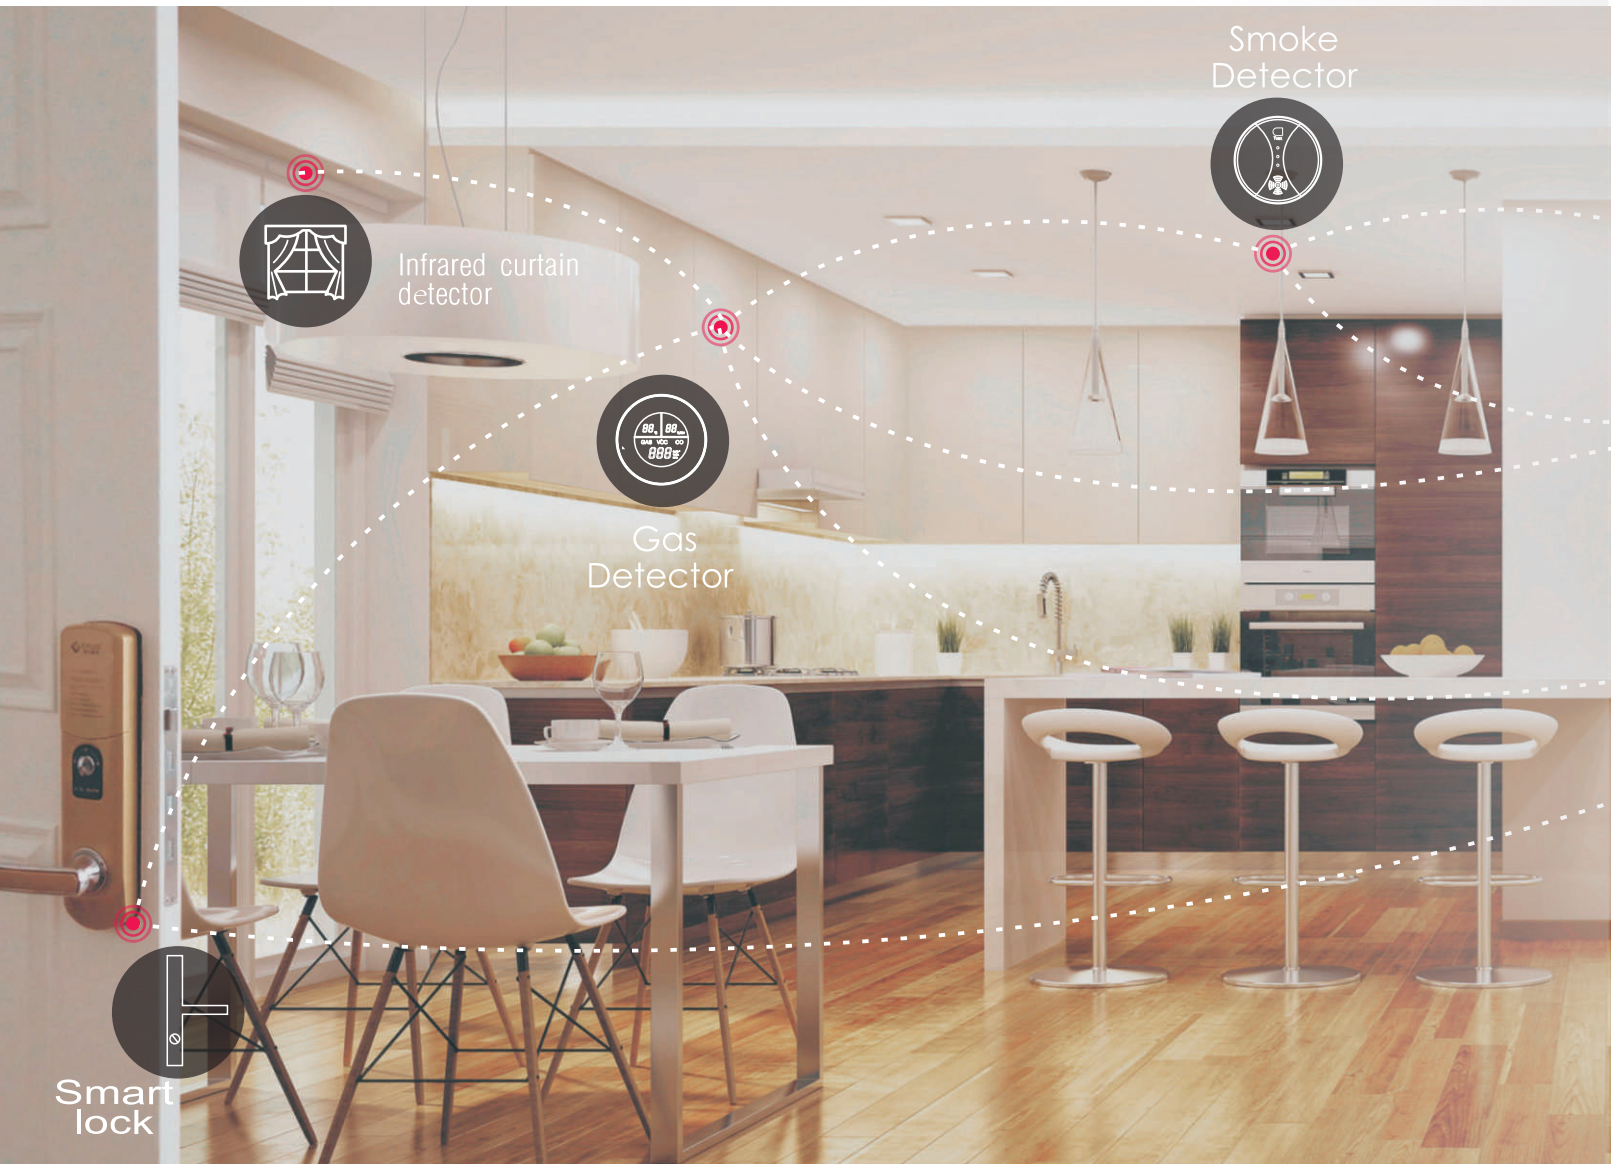

- > Low battery alert.
- > Welcome during the day, guard against burglar at night (multiple modes, free to switch).
- > Smart voice, support voice customization.
- > Remote operation, APP remote operation & alarm push.
- > Power-off memory, no need to readjust voice.

Technical Parameters

Power supply mode: DC-5V 1A
Powered by Micro USB interface or 3 No. 7 batteries
Environmental temperature: -20°C~55°C
Sensing distance: 0-6 meters
Product size: 58x58x49.4mm
